SMART INDIA HACKATHON 2024

- Problem Statement ID - SIH1609
- Problem Statement Title- Implementation of the Alumni Association platform for the University/Institute
- Theme- Smart Education
- PS Category- Software
- Team ID- FOTIH24_103
- Team Name- ALUMights

Idea / Solution

Implementation of the Alumni Association platform for the University/Institute.

- Web application with **two portals** for Students and Colleges on the **same platform**
- Aadhar card / Digilocker **authentication**
- **Feed section** provided to share any post, such as photos, thoughts, etc.
- **Interactive directory** for easy communication with other member
- **Feedback** section, **donation** section and **gallery**

Problem Resolution

- Colleges can send **bulk messages** and **mails** to all **specific batch** students
- Up to date alumni work, **Current Job** automatically shared on the feed

Unique Point of view

- Common **systematic alumni tracing** platform for all **UGC verified** colleges
- Capability to **synchronize multiple colleges** at real time
- Non Alumni **registered** member can access **Internship Opportunities** posted by Alumni
- Colleges **Customize** their section maintaining **theme** and **their culture**

Web Application Development :

HTML, CSS, JavaScript for Frontend and **Python [Django]** for Backend

Mobile Application Development :

Flutter – Framework used for building the mobile application , ensuring **Cross Platform Compatibility**

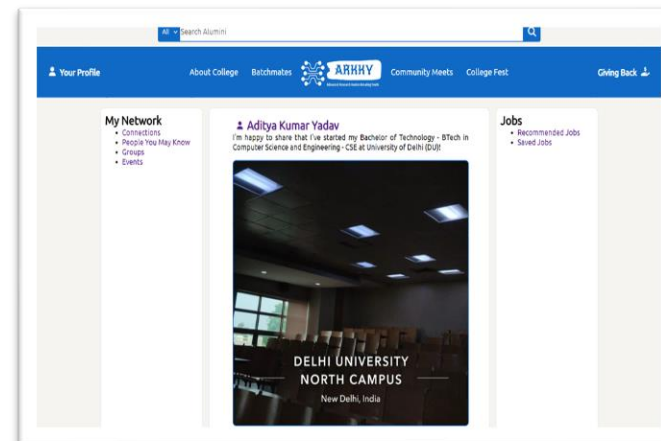

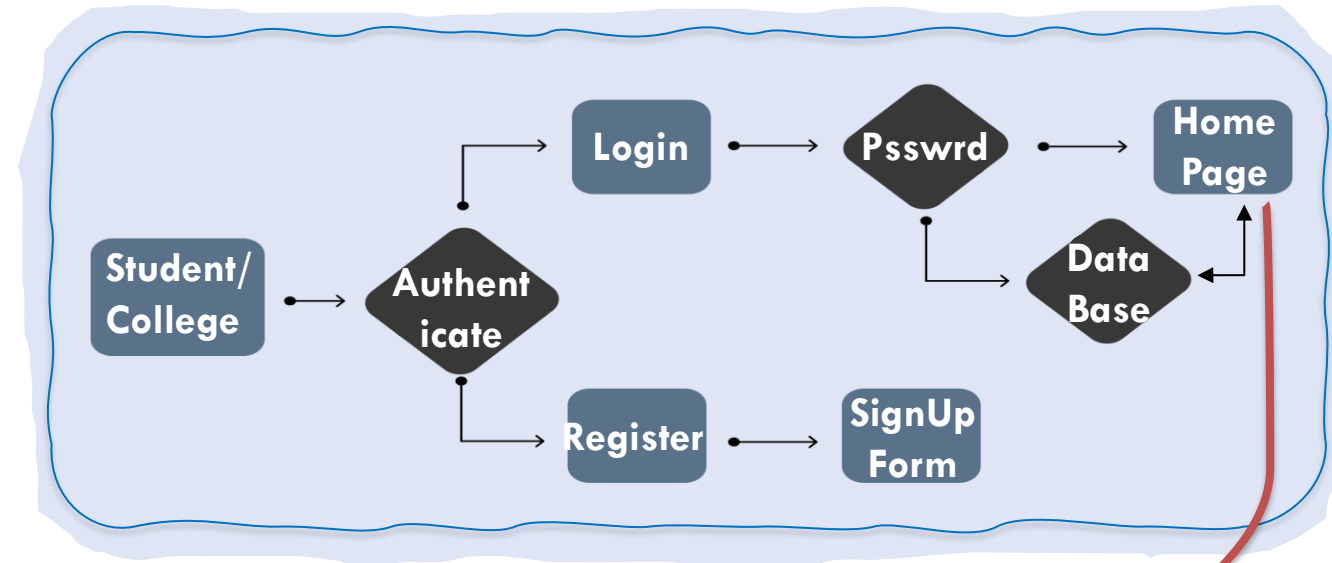

Cloud Services:

MySQL – Relational Database Management
High responsive rest APIs

Encryption and Security :

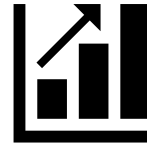

Custom encryption algorithm powered by 8 layer octa 256 bit encryption for secure data transmission

Product Status :

40% product built completed and further is on progress.
Testing & Validation is next

FEASIBILITY ANALYSIS

Resources: Establishing and Maintaining with Time and Diverse Knowledge

Technology: In this Era of Artificial Intelligence, Using AI ChatBot and Latest Technologies

Engagement and Data Management
: Latest Info and Queries Involved, and record them via Database

Organizational Support: Strong backing from the University can Significantly Enhance the Feasibility of our Alumni Network

VIABILITY ANALYSIS

Purpose and Value Proposition:

Connects Unevenly Spreaded UGC Colleges

Sustainability : Sponsorship and Reasonable Membership Fees

Feedback and Adaptation: Regularly gathering Feedbacks of members and Adapting to their Needs

Communication Channels: Utilizing Various Social Media Platform Instagram, X, to promote

Career Advancement: Boosts career prospects through job placements, professional development, and mentorship

Networking Opportunities: Valuable connections, collaborations, and partnerships through shared backgrounds & experiences

Skill Building: Exposure to New Ideas, provides students with skill-building opportunities

Social Support: Alumni can offer support through donations, scholarships, and internships

Reputation Enhancement: Showcasing successful graduates enhances the institute's reputation

Fundraising and Facilities: Alumni contributions can improve research facilities, labs, and other resources

Engagement and Contribution: Engaged alumni are more likely to volunteer, mentor, and participate in institutional events

Feedback and Improvement: Insights help refine programs, curriculum, and services

Long-Term Support: A strong network ensures ongoing engagement and loyalty to the institution

Educational Events: Networking events, workshops, and seminars enhance skills and knowledge

Community and Support: Alumni networks foster social connections, helping members stay in touch and providing personal support.

Exclusive Resources: Members may access industry reports, research publications, and other educational materials

Brand Ambassadors: Successful alumni can promote the institution's value and mission

Social Events: Reunions and gatherings strengthen relationships within the alumni community

Job Referrals: Alumni can benefit from job referrals and recommendations within their network
